DETAILED ACTION

Election/Restrictions

The election of species of record is maintained.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 12 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

There is no support for the phrase, "wherein the neurominidase is administered periodically". No where in the specification can such language be found.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1654

Claim 12 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 12 is confusing since it is not clear what is meant by "periodically". What is this relative to ?

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1, 2, 4-9, 12-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sedlacek et al. '87, Sedlacek et al. '86, Maiskii et al. '77, Knop et al. '78, Gautam et al., Sedlacek et al. '74 or Mobley et al. taken with Green et al., Kline '133 or Kline et al. '863.

Applicant argues that the references do not teach using the amount of enzyme that they claim.

If one were to calculate the amount of neuraminidase used in Sedlacek '86 for example, 10 mU (0.01 units), see abstract, one would calculate that 10 mU to applicant's comparison of 8 units would yield 2.08 mg one would yield 2.6×10^{-3} mg for the 10 mU which is clearly within the limits defined by the instant claims.

Art Unit: 1654

Thus, the references teach amounts of the enzyme which meet applicant's claimed invention.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
